# COMPANY PROFILE

**Dear Sir,**

We are pleased to introduce ourselves as one of the established Unit at Faridabad established in 2018 & today has grown to a manufacturer & supplier of very wide range of sheet metal, fabricated components and Tools, Fixture, & Gauges and Turned Parts for Railways , Oil & Gas industry.

# Our Products

## Mating Flanges

A flange is a cast or forged steel product used to connect a pipe with another mechanical device. In the oil and gas industry, forged steel flanges are preferred due to their strength and durability.

# Our Products

## Brake Pad

Your brake system consists of several components working in unison to stop on your command. The meat of the system is the brake pad

# Our Products

## Foot Rest

Modern, ergonomic **footrests** with built-in man's foot switch for **rail** vehicle driver's desks. Customized design with or without height adjustment.

# Our Products

## Battery Fuse box

Battery fuse box is safety device installed in LHB Coaches to protect the battery bank.

# Our Products

## Hand Rest

The adjustable armrest for a bus or train seat is pivoted to drop down when not required. An internal ratchet on the fixed part of the hinge is engaged by a spring loaded claw to hold the armrest in the selected position.

**Different types of Hand Rest**

# Our Products

## Bar Railing

A bar rail is the longer rail that hangs directly below the top of a bar. The purpose of it is to make a bar look complete and also someplace to hang

**Different types of Bar Railing**

# Our Products

## Threadolets

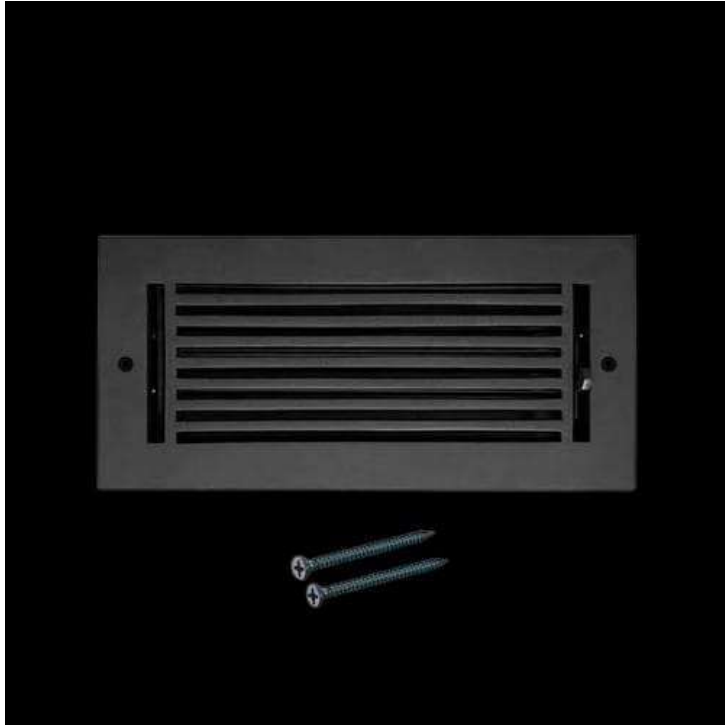

Threadolets are a type of fitting used in piping systems. They are used to branch off from an existing connection, typically at pressure points.
